Trend Micro™

# Internet Security Pro

 Now optimized  
for Windows 7!

You need comprehensive protection against cybercriminals when you shop or bank online or travel with your laptop. Get Trend Micro Internet Security Pro, so you can protect your personal data anytime anywhere when you shop, bank, or browse online.

## Shop, bank, and invest online with peace of mind

Trend Micro Internet Security Pro safeguards your personal information from hackers and cybercriminals whether you are at home or away:

- Remotely secure confidential files and folders in case your computer is lost or stolen
- Automatically check the legitimacy of Wi-Fi “hot spots” when using your laptop on the road
- Prevents data thieves, viruses, SMS text message spam and other malware from invading your smartphone
- Remotely erases data from your smartphone if it’s stolen
- Inspects web page content in real-time – so you’re protected even if you’re the first visitor to a new unsafe website
- Back up as much as 2GB of your critical data to a secure online site

## Smart features tailored to your activities

Trend Micro Internet Security Pro not only defends your computer from the latest spyware, viruses, and phishing scams, and goes one step further:

- Keep your protection current with automatic updates
- Prevent unauthorized users from changing your critical applications, without impacting your PC’s performance
- Pause security updates or scans when you give presentations, watch movies, or play games
- Automatically prevent suspicious software on USB devices from opening
- Helps you to easily manage all the devices connected to your home network
- Easily customizable parental controls to protect your children against inappropriate content
- Get a complete and customizable snapshot of security activities on your computer

## Optimized PC Performance

Trend Micro Internet Security Pro includes powerful, easy-to-use tools to keep your computer running smoothly:

- 20% smaller file size, 20% faster scan time
- Clean up registry and temp files and manage startup programs to boost PC performance

## Surf the web with confidence

- Detects and removes viruses, spyware, and other malicious threats from your computer, email, instant messages and downloads
- Proven leadership in anti-spam technology, including email and image spam
- Finds and blocks untrustworthy links in email and instant messages
- Stops websites from installing dangerous downloads on your computer
- Quick Scan allows you to quickly find and remove most malware when you are running short on time.
